

## HSP0312 300mm Professional Hacksaw

Major Tech's 300mm Professional Hacksaw, a robust and versatile cutting tool designed for professional use. This hacksaw comes complete with a high-grade Bi-metal blade, ensuring durability and efficient cutting performance. Designed with user comfort in mind, the hand grip features a thoughtful design that provides both comfort and protection during prolonged use. The strong beam construction enhances the saw's stability, contributing to precise and controlled cuts. One of the standout features of this professional hacksaw is its versatile keyhole saw section, offering added functionality for intricate cutting tasks. The hacksaw also includes an additional 45° blade position, allowing for use at awkward angles, expanding its adaptability. The easy-to-use tensioning device ensures that the blade is securely in place, contributing to optimal cutting results. With a length of 400mm and a 300mm blade, our Professional Hacksaw is a reliable choice for professionals and DIY enthusiasts alike, providing the durability and functionality needed for various cutting applications. Upgrade your toolkit with the precision and efficiency of our 300mm Professional Hacksaw.
