

KDC22 Cable Shear

Major Tech's 22mm² Cable Shear is a high-quality tool crafted from high-grade carbon steel. It features heavy-duty insulation on hand grips for safety and comfort during use. This shear is designed for cables with a max cross-section of 22mm² and a max diameter of 6mm. Please note that it's not suitable for cutting steel-wired armoured cables. With a length of 165mm², a 60mm² head, and a 97mm² handle, it's a compact and reliable addition to your toolkit

Features

- High grade carbon steel
- Heavy duty insulation on hand grips
- **Max cross section:** 22mm²
- **Max diameter cable:** 6mm²
- **Note:** Not suitable for cutting steel wired armoured cable
