

KHS RANGE Heavy Duty Bi-Metal Holesaw

Our Heavy Duty Bi-Metal Holesaw Range, the pinnacle of precision and performance. With an alternate set variable pitch of 4/6 teeth, these holesaws offer a tighter grip, less vibration, and a cleaner, faster cut. Versatile and compatible with electric and pneumatic drills, vertical drilling machines, and lathes, our heavy-duty bi-metal construction and M3 steel cutting edge ensure extended sharpness. The shatterproof body guarantees durability, and our product line is fully interchangeable with all leading manufacturers' holesaw tools. Elevate your drilling experience with the ultimate in efficiency and reliability.

Features

- Alternate set variable pitch 4/6 teeth - producing tighter grip, less vibration, cleaner faster cut
- Holesaws can be used in electric pneumatic drills, vertical drilling machines and lathes
- Heavy duty bi-metal construction
- Original pattern pressed gap gives full cutting depth
- M3 steel cutting edge keeps teeth sharper longer
- Shatterproof body designed for staying power
- Holesaws, arbors and pilot drills are fully interchangeable with all leading manufacturers of holesaw products
- Ideal for cutting brass, copper, steel, aluminium and wood
